

Legion of Saints Divine Manifesto

To - Be instant in season and out of season; to teach, preach, reprove, rebuke, exhort with all longsuffering and doctrine, awakening our kindred people to the perils of Jewish Imperialism, multiculturalism and the false doctrine of equality, where in all White nations, these false, wrong and erroneous practices are causing a great destruction to civilization, morals and ethics.

To - Understand and demonstrate to our people and governing bodies, that diversity is not our greatest strength, but our most profound weakness.

To - Point out to the ruling class, that we as descendants of the men who founded this and other White nations, are tired of being made into second class citizens through immigration policies, (legal and illegal) hate crime legislation, affirmative action programs that do a great injustice to everyone, even those they were designed to help, social welfare programs that promote massive birth rates among the parasitical class of lazy no goods and the illegal immigrants who have contributed nothing to the White nations they invade, other than the breaking of the law. We are tired of the handing out of our nations' sustenance to third world countries who never strive to rise themselves above their own poverty, disease and degradation, but instead, constantly expect handouts from White nations

To - Demand from this ruling class, positive change in these policies that are in fact, reverse and destructive discriminations against the progeny of those who penned the Constitutions and Laws, sat at the first Continental Congresses and Parliaments, fought, died and bled for the freedoms that are now covertly being torn from our grasp in all White nations around the globe.

To - Proclaim from every hilltop, that we are not going to allow our children to be robbed of an education in a system that caters more to mentally challenged non-white beasts, than it does to the bright, hopeful hearts and minds of our progeny, destined to be the future of this world if it is to survive. We will proclaim loud and clear that we are not going to allow our sons and daughters to be forced to attend schools where their very lives and innocence are in danger, let alone robbed of their birthright.

To - Bring to light that which is conceived in darkness, exposing Jewry for the underlying evil that is so prevalent in the Talmudic disease of Judaism, and that furthermore; it is by the practitioners of this "faith" which has caused a great decaying cancer, eating at the main artery of the heart of our White nations, undermining Christian values, destroying Western culture and stealing away to degradation, the hearts and minds of our youth. We will not and must not tolerate such treason from an evil, devilish people.

To - Know, understand and expound upon, facts that reveal the Jew as the vehement enemy of our God, race and nation and use every resource available to subvert and

undermine Jewish influence in every vein of White society, working diligently to destroy their society, among our societies, at both root and branch.

To - Understand fully the will of the Father, making known to those of our racial household the identity of the true House of Israel, which being, the Caucasian, Celtic, Germanic, Scandinavian, Anglo-Saxon peoples of Western Europe and the Americas. It is these that have the rightful and honorable duty, to be the light bearers and ruling authority of our own society, without outside influence from any un-Godly / un-Christian peoples such as Jews.

To - Know, understand, preach and teach the great, noble and mighty history of our people, while knowing and demonstrating the vengeful, un-Holy mind of anti-Christian, Pharisaic Judaism.

To - Understand and demonstrate fully, that Pharisaic Judaism and the purveyors thereof, are the eternal enemies of the Most High God and Western Man, the methods it employs, its evil intentions and purposes for hindering the work of the Saints, by use and control of the international monetary system, the mass media, our governmental and judicial bodies, as well as the military strength of peoples outside of their un-assimilable Kabbalistic communities designed to bring total control to the one world plan of anti-Christian, Talmudic Communism, today, only hidden to those, who will not see, and thinly veiled as what is termed these days as, Democracy.

To - Wrestle control of our monetary system, the mass media, our governmental and judicial bodies from the hands and influence of the Jew, as well as bring our nation's military back to Western shores, guarding our nations' borders and lands, only employing them abroad to defend other Western nations.

To - Strive for the regaining of the minds of our kith and kin, breaking the grip of Jewish influence and to guide our nations' thinking, helping our people to understand that we must contribute no more finance or military might to that falsely named Judaic, un-Christian un-Godly nation of murderers called Israel, else if we do not, we share guilt in the bloodshed of the innocent.

To - Help make those of our society aware, that there can be no separation of church and state, that Christian law must be implemented and is imperative to govern a Christian society and demand in the political arena that the core of Jewish influence be vehemently castigated and removed, with violence if necessary, forever, from all Western shores.

To - Know that all of these premises is key to understanding the will of God and methods necessary for bringing in the Kingdom of God here on earth. Christ our King stated, "For the Kingdom suffereth violence and the violent take it by force." If taking it back by violence is necessary, then so be it. Let the dead bury the dead.

To - Love and respect, the God of our Fathers, His laws, statutes and judgments, our

kindred brothers and sisters, who are fellow members of the Royal and Holy Family of Christ, the White Race.

To - Be diligently committed to bring into subjection once again, this and other White Christian nations, to the principles that they were formerly founded upon, which is, Christian law.

To - Convince our Christian National Leaders with reason, sound doctrine and facts, that these premises are good, right and correct and must be implemented if our nations are to survive, for the good of all mankind.

To - Be dedicated and always mindful of the premise of which this Holy Order bases its work upon.

To - Pledge that we will diligently strive to bring into like mind, all members of our racial household, to the knowledge of it's mission, to destroy those who destroy the earth and the bringing in of the Kingdom.
